AMERICA'S #1 PPC MANAGEMENT COMPANY

Why Choose JumpFly?

Experience, Experience, Experience

Goto.com (formerly Overture bought by Yahoo!) started the PPC advertising concept in 1998. Since that time, Google, Yahoo!, and Microsoft jumped into this now multi-billion dollar industry. Today in the PPC industry, Google and Microsoft remain the main players and JumpFly was there at the start. As a PPC management pioneer, our years of experience are unmatched. Setting up 1000's of campaigns, reacting to countless platform changes, seeing bottom-line success and failure across many industries, we've seen it all, and know what works in PPC advertising. Our experience is built upon daily and passed directly to you.

Our Reputation, Certification and Support by Google and Microsoft

Since signing on as a Goto.com Ambassador in 2001, JumpFly continues to maintain and strengthen long-time, direct relationships with all of today's largest PPC platforms. These relationships are a key part of the value we bring to our clients. As certified representatives, JumpFly is provided direct support for all of your needs. Google and Microsoft consider JumpFly an important extension of their team. For this, they do everything they can to help us and our clients succeed. By working through JumpFly, your accounts now have leverage to get attention from Google and Microsoft to get questions or problems solved accurately, quickly and easily.

Dedicated Account Managers

JumpFly provides each client with a qualified, expert account manager. This account manager will take the time to get to know your business, goals, past experience, customers, competition, and competitive advantages to come up with the best strategy for implementing and running successful campaigns. Our account managers are highly trained, experienced, and dedicated to our clients and the PPC industry. We're all in-house, and always available through telephone and email. You can count on us to handle any need that may arise at any time.

Unmatched Credibility

Working with JumpFly you can be sure you are working with the best and PPC is all we do. Since 2008 we have been independently ranked #1 of 1000s evaluated as "Best PPC Management Company" by TopSEOs.com. We are the winners of the TopSEOs annual PPC Competition. We are accredited by the Better Business Bureau (BBB) – Rated "A+" since 2005 with zero complaints to date. Over 400 clients choose to work with us month to month without long-term contracts.

PPC Management is Our Only Focus

PPC management is a very specialized industry unlike any other. We focus only on these campaigns and how they affect our clients. By focusing solely on these accounts, we can be sure to be on the cutting edge of knowledge and up to date on changes within our industry. At first glance it may seem convenient to allow an SEO company to manage your PPC campaigns, but this can be a big mistake. Most SEO companies are providing PPC management as a secondary service due to a demand by their clients. These services, through seemingly similar are really apples and oranges. Any agency needs to truly take the time and effort to become PPC experts over the years. Results in PPC vary greatly depending on setup and management. Without proper experience and focus, dollars will be wasted or new business will be left on the table. We believe in leaving SEO to SEO experts, and PPC to JumpFly.

SINCE 2005

JumpFly New Client and Management Fees

Working with JumpFly begins by talking with one of our qualified specialists about your specific business needs. Once all of your questions are answered, and you choose to work with us, you are responsible for our new client fee and first month of management.

No Contracts - Service is Always Month to Month

Our clients choose to work with us each month based on value. We do not hold any of our clients to a long contract of service. Service can be canceled at any time after the first month.

1. One Time New Client Fee - \$2,995

Over 80% of our clients are small and mid-sized companies which fall into our base fee of \$2,995. However, we can offer a discount to \$1,995 for smaller, highly focused clients that require less time to learn and build out, as well as quote higher than \$2,995 to bring on accounts that require an amount of research and time above and beyond what we consider to be an average client. If you have questions about your business specifically, please reach out as we are happy to provide an exact quote.

For each new client, we have a lot of work to do. We are very proud of our work and ability, and fully believe achieving the best results starts with a great foundation. To start the process, we conduct an in-depth interview with each new client to develop a personal and meaningful relationship from which to build. We start by learning about your business, goals, past experience, customers, competition, competitive advantages, and really anything at all related that can help us maximize your advertising investment. We then start the process of getting your accounts ready to launch based on the agreed strategy and goals. Some of this work includes: a full keyword analysis including negative keywords, keyword organization, copy writing for multiple ads in each group, proper platform settings to maximize results demographically, budget monitoring, and much more. The platforms at Google and Bing offer many options that businesses need to be aware of to get maximum results, and we make sure everything is in place properly from the start whether you are brand new or come to us with years of PPC history and fully running campaigns. Our work is always done from scratch, and yours to keep.

2. JumpFly Monthly Management Fee

We charge a flat, ongoing monthly management fee based on your total monthly traffic budget to take care of everything for you. This ensures your accounts are always ready to take advantage of everything Google and Bing PPC ads will bring to your business.
