A. To build teacher capacity so as to increase the use of research based strategies, improve students' academic performance, and engage students in more active learning as evidenced by classroom observations, teacher reflections, lesson plans, and students' academic performance data.	A.4. Teacher Cohort Members meet regularly with ER Staff for the purpose of reflecting on Desired and Present State during planning periods and monthly meetings after school.	August 27 September 7 September 18	Teachers will have a clear focus for the work ahead of them during the 2012-2013 school year.	Agenda Scheduled Meeting Days for September	Teachers knew the plan for September/ <i>teachers were uncomfortable with the demands on their planning time. As a result, the scheduled meeting times were amended to one planning period per month. One teacher dropped from the Cohort Team.</i>	ER Team
	A.5. Teacher Cohort Members meet in small, nested Learning Communities during ½ day release time for the purpose of learning new tools, strategies, reflecting on practices, conducting lesson studies, and learning protocols for structured conversations.	September 13	Teachers will learn the protocol for a Structured Conversation.  Teachers will work through an inquiry process to explore tools.	Agendas Teacher Reflections Resource Materials	Teachers reflected on present practices in PLCs in comparison to Structured Conversations/ <i>Teachers realized that many similarities exist between current PLC structure and protocol for a structured conversation. Significant differences noted were active listening by the presenter and focused work on a single task.</i>  Teachers worked through the process with CCR data using a Structured Conversation./ <i>Teachers immediately recognized the need for interventions during the school day. Several cohort members volunteered to be part of an intervention committee for SHS.</i>	ER Team Teacher Cohort Members

A. To build teacher capacity so as to increase the use of research based strategies, improve students' academic performance, and engage students in more active learning as evidenced by classroom observations, teacher reflections, lesson plans, and students' academic performance data.	A.6. Teacher Cohort Members meet in small, nested Learning Communities during ½ day release time for the purpose of learning new tools, strategies, reflecting on practices, conducting lesson studies, and learning protocols for structured conversations.	September 13	Teachers will review Reading for Meaning through a Lesson Study.  Teachers will reflect on new learning and plan next steps.	Agenda  Reflection log  Lessons embedding Reading for Meaning	Teachers walked away with a better understanding as to how to plan a Reading for Meaning lesson./ <i>Teachers realize the importance of identifying theme, central ideas and key details prior to planning meaningful anticipatory statements. Teachers liked the planning template provided and seemed eager to plan a lesson using the template. One teacher felt overwhelmed and will need additional support.</i>  Teachers committed to continued efforts in promoting new research based strategies and tools into their content <i>PLCs/Cohort teachers questioned how to get everyone onboard and how to deal with people who are resistant to new ideas. It is imperative that we publically support the Cohort teachers as they endeavor to share the work and are met with resistance.</i>	ER Team Teacher Cohort Group
