

ROADMAP TEMPLATE FOR ITI PROPOSALS

1- The roadmap shall start with a bar chart illustration as in the following picture:

Guidelines:

- * Concluded or On-Going activities in: Green
- * Planned activities (funded not secured yet) in: Yellow
- * Future activities with the proper funding source not yet identified in: Light Red
- * Funding sources (Programmes) to be written over the time-span bar with a '?' in case of uncertainty

2- After the chart, the roadmap shall contain the following 3 very succinct written sections (title underlined):

- a) The Final R&D Aim has to be justified according to the target application and the expected advantages of the technology with respect to the current state-of-the-art.
- b) The Overall Logic of the Roadmap, including the sequence of required R&D activities, their cost and time-span need to be explained.
- c) A more detailed Description of the Next Activity in the roadmap to be implemented, including its objectives, expected results and title of the planned Work Packages (preferably presented in a Work Breakdown Structure (Gantt Chart) format).

3- The whole roadmap, including charts, shall be written with a reasonable font size and still fit in a 2 page document.
