

Cut out the bunny ears and colour them in. Staple or glue them to a head band.

To make a headband, cut out a long strip of paper. You will need it to be long enough to wrap around your head. (About 50cm / 20 inches) Attach the ends of the headband together to make a large circle.

Tip: To make your ears less floppy, print them out on cardstock. If you don't have cardstock, print them out on regular paper and glue them on cardstock (thicker paper that is almost like cardboard). Then attach them to your headband.
