

Using the Correct Order Template

- Copy the presentation to your hard drive.
- Open the slides using *slide sorter* and copy slides #3, 4, and 5 for each question you are going to construct. You will need all three slides for each question.
- Follow the instruction on the Notes Page on Slide #3 to construct each question.
- Delete this slide (slide #1) after you are done constructing the questions.
- Save this file.
- Note: The question slide will advance to the wrong answer if there is no response for 11 seconds. This can be adjusted with the slide transition options.
- Note: The slide for a wrong answer will not advance except by clicking 'Try Again'.
