

Condom Size Chart

Condoms in the US are not usually labeled by size. For risk reduction, we counsel our patients about using condoms, but some patients say condoms don't fit well for them. Most patients have no idea that condoms come in different sizes, so we can help them much by teaching them about the wide varieties of sizes available. Here is a list with some common brand names from the US.

	<i>Length(mm)</i>	<i>Diameter(mm)</i>
Lifestyles Snugger Fit	160mm	49mm
Contempo Exotica	160mm	49mm
