Rice Cooker - Cooking Time

Cooking	Button	Water Level Scale	Type 1.0 L		Type 1.8 L	
			Amount of Rice (Cup)	Standard Cooking Time (Minutes)	Amount of Rice (Cup)	Standard Cooking Time (Minutes)
White Rice	COOK	White Rice	1-5.5	38-51	2-10	42-54
White Rice (Rapid Cook)	COOK (Press twice)	White Rice	1-5.5	34-43	2-10	38-46
Mixed Rice	MIXED RICE	Mixed Rice	1-5.5	44-48	2-10	45-58
Glutinous Rice	COOK	Glutinous Rice	1-3	37-46	2-6	39-46
Congee	CONGEE	Congee	0.5-1	76-80	1-3	78-83

Preparation

1 Measure the rice with the measuring cup provided.

- A flat-filled cup of rice is approx. 180 ml.

2 Quickly rinse the rice until the water becomes clear.

- ① Firstly, fill enough water and mix the rice and water and rinse the rice, then pour out the water immediately.
- ② Scrub and rinse the rice repeatedly with water until the water becomes reasonably clear.

◆ The rice can be rinsed in the inner pot.

3 Fill in or pour out water according to the water level scale of the cooking means you want.

- Please level the surface of the rice and fill in or pour out water on a flat surface.
- Fill in or pour out water according to the cooking means and the cups of the rice. And adjust the amount of water according to the type of the rice and your personal taste.

◆ Example: Cooking 3 cups of rice.

4 Place the inner pot inside the body and close the outer lid.

- Please wipe away the water drops and dirt on the outer of the inner pot, the temperature sensor, the cooking heating plate and the inner lid.
- In order to make the inner pot close contact the cooking heating plate, please turn the inner pot twice or three times in the directions as shown by the arrows.
- Make sure that the steam vent works properly.

5 Fit the power plug into the socket.

- Please hold the plug while fit or remove the power plug into the socket.

6 Make sure that the time on the display window was set precisely with the present time.

How to adjust the clock

Example: To adjust the current time to 8:31 a.m.

Procedure

- 1** Hold down the Hrs button for more than 1 second.

▼ The clock display flashes.

- 2** Press the Hrs button to adjust the Hour readings and press the Min button to adjust the Minute readings.
 - For Min button, if the button is held down and not released the setting pace will be 10 minutes.

▼ The clock display flashes.

- 3** Press the CANCEL button.
Clock adjustment is complete and the time counts.

▼ The clock display unflashes.

NOTE

- The lithium battery installed inside the cooker will last for 4-5 years at the room temperature of 20°C with the power plug connected. With the lithium battery, the current time can still display and the set time is still stored in the memory even though the power plug is disconnected. If the display lights off or 0:00 flashes on the display, it means that the battery expired. Even if the current time and the set time disappear, the cooker can cook rice as usual. (Pressing CANCEL button will stop the flashing of 0:00.) Never drop the lithium battery into water or charge, disassemble or heat it.
- The clock cannot be set during COOK, WARM and TIMER mode.
- The clock cannot be set if the power plugs (at the power supply side and the body side) are not fully inserted.
- While the clock display is flashing, the clock will not go ahead.
- Time display is 24 Hrs.
- In the operation of the Hrs button, at 0:00 the sound “beep luu luu” will be heard and at 12:00 the sound “beep luu luu” will be heard twice. In the operation of the Min button, the sound “beep luu luu” will be heard at 00 minute and the long “beepee” sound will be heard at 10, 20, 30, 40 and 50 minutes.

How to preset time

Example: To set the timer for cook white rice in 7:30 a.m.
