

motorola roadster pro
Bluetooth®
car speakerphone

let's get started

Here's what you get

check it out

Be safe. Be awesome. Make and receive calls or play music from your phone using the Motorola Roadster Pro while safely keeping your hands on the steering wheel.

- Connect with two phones at the same time.
- Hear a caller's name and use your voice to answer or ignore calls.
- Let voice prompts guide you in making connections, checking battery level, and more.

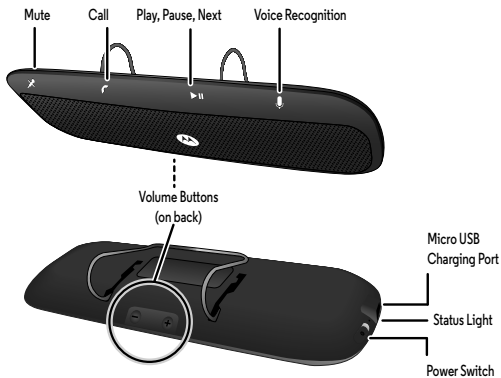

Go ahead, check it out:

Caution: Before using your device, please read the safety, regulatory and legal information at the back of this guide.

Hi. Meet your speakerphone

take a good look

Give it some juice

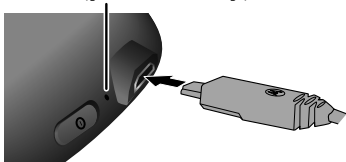

charge it up

Status Light

Red (0-30% charge)

Yellow (30-95% charge)

Green (greater than 95% charge)

You can use your speakerphone unplugged or plugged into the charger.

Note: Your battery is designed to last the life of the product. It should only be removed by a recycling facility. Any attempt to remove or replace your battery may damage the product and void your warranty.

Tip: Later while you're using your speakerphone, you can hear what the battery level is by pushing the Volume Up  and Volume Down  buttons as the same time.

Where to put it

move over, garage door opener

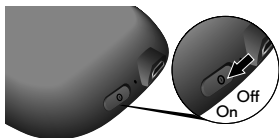

Important: Before installing or using your product, check the local laws regarding mounting and use of equipment.

For safe installation:

- Do not put your product in a location that obstructs the driver's vision or interferes with the operation of the vehicle.
- Do not cover an airbag.

Ready? Turn it on (or off)

power up

- **On:** the speakerphone automatically turns off when you move your phone away from the car. Through motion detection, the speakerphone automatically turns back on when you open or close the car door.
- **Off:** the speakerphone is off. The automatic on/off feature is also disabled.

Connect it and go

set up Bluetooth®

Turn off any Bluetooth devices previously paired with your speakerphone. Then:

1

Turn on Bluetooth on your device.

2

Turn on the car speakerphone. After the blue light comes on and you hear, "**ready to pair**," follow the voice prompts to pair and connect with the device.

3

Go to the Bluetooth menu on your device, and enter passcode **0000** if prompted.

4

When the device and car speakerphone connect, you'll hear "**pairing complete**".

Note: If you are prompted by your phone to grant phonebook access, touch **OK** on your phone.

Tip: After you pair the first time, when you turn on your speakerphone and your phone's Bluetooth feature, they connect automatically.

Second device?

Do you use two phones, or a tablet and a phone? Integrated multipoint technology can pair them both.

- 1 Use **“Connect it and go”** on page 6 to pair the second device. Your speakerphone remains in pairing mode for five minutes after turning on.
- 2 After you pair them, just turn on both devices to connect them.

More tips for using two phones:

- **With two phones connected, not on a call:** Press  to use voice recognition on the first phone. Double-press it to use voice recognition on the second phone.
- **With two phones connected, one call on hold:** Press  to go to the call on the first phone. Double-press it to go to the call on the second phone.

Test your connection

- 1 Make sure your speakerphone is turned on.
- 2 On your phone, dial a phone number and press the Call/Send key.

When you successfully connect for calls, you hear ringing on the speakerphone's speaker.

Stream some music

play music from your phone

Note: This feature is phone dependent.

To hear music on your speakerphone, connect by Bluetooth, start playing music on your phone, and then:

- To play/pause the song you're playing on your phone on your speakerphone, press .
- To advance to the next song, double press  until you hear a tone.

While a call is active, music pauses. When the call ends, music resumes playing.

Note: You need to play music on your phone before you can hear and control it with your speakerphone. Also, the volume setting on your phone may change the volume on your speakerphone.
